**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am 100% against letting our systems be controlled by some of the bigger internet providers like Century link, that we wet through last fall. Their lines to our area are very old and that cannot maintain daily service and they were unwilling to put in the lines that do not work, so they had a repair service coming over when he had time so we could get service, so this is not acceptable. We haven't had to deal with some service some of the time., as opposed to have day and night service at all times. Our service last year with Century link was like the service was in 1994; undependable, iffy, off and on.

Smaller companies seem to work harder to make their service better.

Century Link cannot provide service they have to companies now, so how would they with more customers.
